LISÄKUVAT

**2.8.9 Wireless start/stop module
(option)**

By using the wireless start and stop module (RSS) the generator can be started/stopped remotely.

- 1 | Engine choke
- 2 | Start engine
- 3 | Stop off engine

To connect the RSS to the generator, see the 14-page connector. Then switch the key on the generator to "ON" or "I".

To start from RSS:

- 1. Press button (1) and button (2).
- 2. Release button (2).
- 3. Release button (1) after 2-10 seconds.

To stop from RSS:

- 1. Press and release button (3).
